## To Explore Tiburon Isle.

Albuquerque Tribune-Citizen  
After a number of delays occasioned by a lack of understanding by the officials of the intent of the party the Tiburon Expedition, headed by Professor Fayette A. Jones, of Albuquerque, was ready to set sail from Guaymas, Mexico, Wednesday afternoon. The party is on its way to an island inhabited by the Seris in the Gulf of California. Its object is to explore the country and locate a fabulously rich body of gold bearing quartz in the Altar desert on the coast of Sonora opposite Tiburon Isle.

It is said that a young mining engineer fresh from college and with a desire to distinguish himself and grow rich at the same time, set out for the locality for which the expedition headed by Jones is aiming. There he found an outcropping of gold quartz that fairly made him dizzy. Picking up as much as he could carry the engineer returned to civilization bringing with him \$8,000 of gold-bearing ore. In attempting to return to his bonanza he became lost and wandering about the desert perished miserably. Later his body was found. In a pocket were maps showing the route to the locality in which the engineer found the gold. The Tiburon expedition has these maps and will endeavor to locate the bonanza.

The scene of the engineer's discovery is on the island of Sonora, directly opposite Tiburon. The story of his discovery and subsequent death on the desert, the finding of his body and the maps leading to the treasure and the final reversion of these from the hands of the Mexicans who discovered them to the Americans who later formed the exploring company, reads like one of Robert Louis Stevenson's plots. Should the expedition turn out successfully it will be shown that truth, after all is stranger than fiction.

Another party headed by "Buteh Frazier of Tonto basin near Phoenix, Jimmy Hale and "Tangle" Johnson of the Tonto basin, are on their way to Yuma where they expect to join the Jones expedition. Following is a letter received from Mr. Jones by the Tribune Citizen:

"Guaymas, Mex., Oct. 28, '09.  
"The Tribune Citizen:

"After several days of thrashing out technicalities in securing our clearance papers from this port we are billed to sail this afternoon. We sail under the American flag in our own vessel which we have christened the 'Seri.' The vessel is nine ton, two masted, and built for both service and pleasure. It has sailed around the 'Horn' and is in every respect sea-worthy.

"Considerable curiosity and interest is manifested at this port in the expedition and our heavy arms have excited the vigilance of the revenue cutters and it seemed for a time that we would not be permitted to sail out of the harbor. We are under many obligations to General Luis E. Torres and the American consul, Louis Hostetter, both of Hermosillo, and the one American Consular agent, C. B. Taylor, of Guaymas.

"The purport of the expedition has not been well understood by the people of Mexico. It is not the object of the party to molest or harm the Seri Indian, but our arms are a means of protection to ourselves in case of savage treachery. Moreover, the expedition will doubtless bring to

## Shallow Well Irrigation at Portales.

(Albuquerque Journal.)

Portales, Nov. 2.—Water from the well of Judge Lindsey, which is about one and one half miles from town, is now flowing down the streets of Portales. The final test of this well has been made and there is no longer any question about the practicability of shallow well irrigation in this section. Six thousand acres around Portales have already been signed for, and another six thousand are wanted and will probably be added before the plant is in operation. The six inch stream from the well on the Lindsey farm throws one thousand gallons of water per minute, and the other two test wells are doing as well.

A prominent realty holder said today: "There is nothing that could have happened that could mean so much to Portales and the surrounding country as this. When the irrigation system is in full and complete operation, we will have everything easy. We have raised bumper crops in this section for half a dozen years now, by depending strictly upon the rainfall, and with the certainty that we will have a season just when we want it here can be no question about a great agricultural future for this district."

## Prison Sentence of Labor Leaders Affirmed

A dispute from Washington states that the district court has affirmed the decree of the supreme court of the District of Columbia, adjudging president Samuel Gompers secretary Frank Morrison and vice president John Mitchell of the American Federation of Labor guilty of contempt of court in the Bucks stove and range case, and ordering their imprisonment. The sentence of Gompers is one year in prison; that of Mitchell nine months and that of Morrison six months.

Chief justice Shepperd dissented from the opinion on constitutional grounds.

## Perry is Voted a Medal

Washington, Nov. 3.—Commander Robert E. Perry was today voted a gold medal by the National Geographical society for racing the north pole.

The board of managers of the society at their meeting today accepted unanimously the report of the subcommittee of scientists who have examined the former explorer's record and proofs, and found them corroborative of his claim that he had reached the pole.

The society adopted a resolution that the question of whether or not any explorer reached the pole prior to 1909 be referred to a sub-committee of experts.

This indicates that the society proposes as soon as possible to pass on the record of Dr. Cook.

Commander."

## Sandoval-Swabecher Nuptials.

At 9 o'clock Friday morning the Catholic Church of Old Sunnyside was thronged with friends and relatives of the Sandoval and Swabecher families, the occasion being the marriage of Enrique Sandoval and Felicitia Swabecher.

The ceremony was impressively performed by the Rev. Father Haelterman of Puerto de Luna. At the conclusion of the church ceremony, the bridal party followed by the assemblage marched to the strains of Spanish melodies rendered by an orchestra, to the Swabecher residence where refreshments were served.

Miss Felicitia is a daughter of Mr. and Mrs. Domingo Swabecher. She has grown to womanhood in this immediate vicinity and is loved and respected by the entire population. She was attractively dressed in a white gown and wore a veil that charmingly enhanced her natural beauty.

Mr. Enrique Sandoval is the eldest son of Mr. and Mrs. Isaac Sandoval, one of our most prominent and respected Native families, and is employed by the firm of Erickson and Company.

The reception at the Swabecher residence was followed in the evening by a dance at Fitzgibbon Hall, at which every available inch of space was occupied by the elite of the community. The ladies attending were especially conspicuous by their beauty and handsome costumes.

Following is a list of wedding presents, which tends to evidence of the young couple's popularity:

Erickson & Co. and employees, complete boudoir outfit; Mr. Mrs. L. M. Disney, rocking chair; Dr. Lovelace and C. C. Henry, rocking chair; F. C. Hastings, French plated mirror; Miss Justina Beaubien, lace curtains; Mrs. Annie Cullahorn, china dish; Miss Pattie Hunt, china set; Mrs. Rooney, table cloth; Miss Alben'ta Page, china set; Mrs. H. W. Naylor, silver spoon; Mrs. A. B. Harris, water set; Henry Reinhardt, washstand; Miss Tecla Swabecher, pin cushion.

We regret our inability to secure a more complete list of the present at the hour of going to press.

## Gets Drunk and kills his Child.

(Clovis Daily Journal.)

Crim, Texas, Nov. 2.—One of the most horrible crimes that has been enacted in this section of Texas for some time, was that of last night, when Jacob Williams, a farmer living near this city, became enraged over some action of child, who was not more than ten years of age, and when crazed with drink killed the child by striking it over the head with a piece of wood that he picked up near by. The whole neighborhood is wrought up over the occurrence and it is likely that Williams will be mobbed if the officers who have him in charge do not get him out of the community today.

## The Review, One Year One Dollar.

L. C. VanHecke returned from Clovis Wednesday, to which place he went after attending to business at Mohrse. Judging from the smile he wore on his return, he either had a very successful trip or was much pleased to return to "Fort Sumner on the Pecos."

G. W. Pledger, tenant of L. M. Disney, on one half acre produced \$61.80 worth of cantaloupes. Mr. Disney took this place about the first of June; it is raw land, had to grub plow and fence. Taking it altogether Mr. Pledger has made a great success.

Mr. Pledger raised ten thousand pounds of sweet potatoes per acre on three acres of land.

The dance at Fitzgibbon Hall Saturday evening, was greatly enjoyed by a large attendance. An especial feature of the evening was the first appearance of The Fort Sumner Cornet Band, in public. Every reasonable person present had a word of praise and encouragement for our band boys and with a little time and practice they will add greatly to the pleasure and prestige of our little city.

Three cheers for our band boys!

## Communication.

It is with a deep sense of duty and responsibility that I enter upon the administration as Health Officer of Precinct No. 12, fully appreciating the enormous amount of work to be done in our town, and realizing that it would take no small amount of time in making a personal inspection of the different residences and businesses, I take this opportunity of notifying all parties to begin at once in cleaning up their yards and out-houses, using lime and other disinfectants, and making the proper disposition of the same.

Chapter 103, Section 5, Acts of 1903, states that the Board of Health shall examine into all nuisances, sources of filth, or causes of sickness, that may in their opinion be injurious to the health of the inhabitants of the Territory, or of any county, city, town or village in the territory. This section shall extend to and include the examination of such nuisances, source of filth, or cause of sickness, as may be found in any railway car, or train of cars, and the board may make specific regulations for the control of the same.

Section 6. Whenever any such nuisance, source of filth, or cause of sickness, shall be found on private property the Board of Health shall order the owner or occupant, or the person or persons that have caused or committed such nuisance, at his own expense, to remove same within twenty four hours, and in default thereof, he, she, or they shall forfeit the sum of not less than \$25.00 or not to exceed \$100.00. Each twenty four hour failure to obey such order, after the first, shall constitute a separate offense.

Very Respectfully,  
W. R. LOVELACE, M. D.
